

President News: Welcome Chapter Leadership 2018/19 Fiscal Year

As my two-year term as Chapter President comes to an end June 30 and I move to the Board as Nominations Chair, I would like to thank our current Officers and Board Members for diligently pursuing a focused strategy that has delivered growth in quality, membership and sponsorship

that the chapter has not seen for many years. For the first time in memorable history, we also had a competitive race for Chapter President and we have welcomed three new outstanding members to our board. This is positive energy, folks, and a great foundation to continue serving you, the members, of New York City's premier association for financial executives.

See you soon!
Matt

Nurture Your Network

Provided by Alyssa Gelbard

Whether you're looking to elevate your professional presence, find a new job or pursue a board seat, nurturing relationships with the people in your network is essential. A strong, reliable and helpful network requires ongoing TLC, yet too many people only discover this when they need to lean on their network for something timely and realize they've been out of touch.

Relationships should be cultivated both in-person and online, whether you meet someone for coffee, send an email or text to touch base, invite them to an event (like FEI!), catch up before a meeting, give them a quick call or even comment on/share/like their LinkedIn post. How and when you communicate with someone depends on a variety of things, including the nature of your relationship, geography, time of year, your professional goals etc.

Key to a good network is to stay in touch with people when you don't need them for help, so they're there when you do. Also, remember that relationships are two-way streets, so be a proactive and helpful resource.
