**Thursday, July 9 —1:00 to 2:00 pm ET**

#### **Webinar presented by Stout: ‘Your Digital Defense: Assess Cyber Risks, Prevent Data Breaches & Unmask Threat Actors’**

Organizations are facing increased cyber risks and threats from cyberattacks causing data breaches and compromising critical sensitive information. The current post-COVID-19 business environment with vulnerabilities created by the challenges of transitioning to remote and digital operations at scale is exacerbating the threats of data asset compromise.

Our expert panel of risk and cybersecurity specialists will review the cyberthreat landscape, discuss how to identify, prevent and detect cyber risks using Artificial Intelligence and Machine Learning (AI/ML) techniques, and other risk mitigation measures. We also explore the data breach life cycle, and tools and practices to leverage data breach information to unmask threat actors.
