# FUTURE OF FINANCIAL TECHNOLOGY CONFERENCE

June 15, 2017

Renaissance Minneapolis Hotel, The Depot | Minneapolis, MN

Financial executives need to embrace the disruptive technologies sweeping the C-Suite, board rooms and offices everywhere. Artificial intelligence, blockchain, and data analytics and yet-to-be-discovered innovations are transforming how we do business.

This conference provides an innovative agenda delivered by leading authorities addressing the game-changing technologies and how they will impact you and your business.

## Key Learning Objectives

- Determine how to utilize existing and future technologies to address the needs of your business
- Understand the impact information technology is having on finance
- Gain insight into how audit innovation is creating new audit delivery models
- Develop and implement strategies for implementing the new technologies you will need to compete.
