The finance function of the future will look different from how it looks today and will require forward thinking CFOs. This two-day conference will attract senior professionals with responsibility and oversight for financial and operational strategy, digital tactics, employee engagement, risk management, cybersecurity, and IT strategy. Gain unparalleled exposure to these key financial decision makers who are responsible for making the strategic business development and purchasing decisions for their organization and who will be attending to hear from and connect with thought leaders and solution providers.
